
Hoi4 Millennium Dawn Crash

Download

November 23, 2021 - I want to play Millennium Dawn, but when I do so, my game is glitching with Egyptian hieroglyph text in the menu and crashing. Is there a way to make it work, and if so, who can give advice as they don't work? It's very annoying. This is very bad. I don't know why you are getting these crashes because I have no experience with C# but I hope you can get it in more or less normal
